Cosmo,

Mark Ferrell, our WV Liaison, has been deployed as a Liaison to the Parkersburg fire response where he is working in the joint information center.

See below for a message about a conversation that Sen. Manchin had with Admin. Pruitt. It appears that Sen. Manchin's request for some additional support will be handled through the proper channels through the state and then to us if they need our help.

Just want you and HSCD to be aware of this most recent communication.

Mike

Mark —

Just to follow up — my boss did speak with the Administrator and thanked him for the work on air quality monitoring and stressed the importance of that ongoing work. He also flagged the concerns we are hearing regarding water contamination and asked for assistance on that front. I believe the Administrator may be reaching out to Jimmy Gianato who is our emergency response lead in state.

Thank you

Sarah

Sarah I am on my way to Parkersburg and can better answer those questions once I'm there on scene.

Thank you Mark. Very helpful. My boss is very concerned and may reach out to Administrator Pruitt at some point today — no complaints — just making sure he is aware and that JM would like everyone here in DC to be helpful. Our scheduler is coordinating that with Troy Lyons.

I can be reached at 202.228.5658.

I'm hearing that the WV National Guard is providing foam to help fight the fire. Are there concerns re water contamination? The Little Kanawha River is about 300 yards away. And we have had problems in WV with PFOA in foam contaminating groundwater before (e.g. problem in Martinsburg is ongoing)

Thank you!

Hi Sarah

Just sharing with you some clips I gathered this morning, most of which you've prob already seen.

Mark & Mandy –

I apologize if you are not the correct points of contact regarding this but I wanted to get our office in touch with yours regarding the burning fire in Parkersburg, WV at the Ames plant – particularly in light of the respiratory advisory. We are also in touch with the CDC and Coast Guard. Since Governor Justice declared a state of emergency, we are also coordinating with our state folks as well at WVDEP.

Senator Manchin wants to be sure Parkersburg is getting everything it needs in terms of resources. I believe that you all have sent air monitoring equipment to the state but wanted to see if there is anything else that we can be doing.

I can be reached at 202.228.5658.

Sarah Venuto

Senior Policy Advisor

Senator Joe Manchin III (D-WV)
